

Product Data Sheet

DOUBLE INJECTION BLACK FRAME: SG 080-CA
DOUBLE INJECTION WHITE FRAME: SG 081-CA

SHOGO is the first touch screen, WIFI, lifestyle digital picture frame designed to receive, view and share digital pictures with friends and family around the world, and without a PC.

PRODUCT DESCRIPTION

Imagine viewing and sharing your favorite photos and albums with friends and families around the world, frame-to-frame! With its wireless Internet/WiFi connection and integrated battery, SHOGO is the world's first touch screen digital frame that allows receiving, viewing and broadcasting photos, frame-to-frame. The 1 Gb built-in memory allows displaying more photos than ever in their original 4:3 format. The auto rotate function automatically adjusts photos in either portrait or landscape position. But SHOGO can do even more: view weather forecasts, news alerts, listen to Internet radios ... SHOGO frees digital content!

SHOGO
MAKES
SHARING
EASY!

PRODUCT KEY FEATURES & BENEFITS

- **Industry first touch screen** digital picture frame for easy navigation, all at the touch of a finger
- **1 Gb internal memory** to store more pictures than ever
- **True picture format** display (800 x 600 – 4:3) avoids cropping and black borders
- **Auto rotate** feature adjusts photos to portrait or landscape mode
- **Interchangeable frames (SHOGOSKINS)** to match your home interior, and moods
- **Ethernet and WiFi** powerline support via Ethernet and USB
- **RF remote control** does not require aiming at the frame and removes unaesthetic infrared sensor from frame
- **Integrated memory card reader:** SD/MS/MMC/XD/SDHC
- **Integrated stereo speakers** to play back your favorite mp 3 music and Internet radios with or without slideshows. The audio jack allows you to connect your SHOGO to external speakers
- **Aggregate and view photos and albums available on multiple Internet sources** (Flickr, Smugmug, Picassa, iMac ...), and configure further dynamic content such as weather forecasts, Internet radios, using the myshogo.com web portal
- **Operate cordlessly as a photo album**, thanks to the integrated **rechargeable battery**
- **Auto software and firmware updates** to upgrade features and add services over the Internet
- Ethernet port for quick trouble shooting, easy WiFi set-up, and to be always connected to the Internet
- Language support: English, French, German and more coming soon

PRODUCT PICTURE VISUALS

TECHNICAL SPECIFICATIONS

Picture/Display

- Bright high resolution TFT active matrix digital screen
- 32.000 colors (16 bit)
- Display backlight: LED
- Contrast ratio: 400
- Effective viewing area: 162(W) x 121.5(H) mm
- Resolution: 800 x 600 pixels, 4/3 (viewing area 183(W) x 141(H) mm)
- Viewing angle: @C/R>=10, 50°(T)/70°(B)
- Lifetime, to 50% brightness: 20 000 hrs
- Brightness: 250cd/m2

WiFi

- 802.11 B/G

Connectivity

- USB 1.1 host and slave ports
- Ethernet
- Stereo audio out jack

Storage media

- Memory card types: Secure Digital Card (SD), Memorystick (MS), Multi Media Card (MMC), eXtreme Digital(XD)/SDHC
